alessandro marianantoni
gianluca rizzo

The obstacle the rough sketch of the world's outline
footprint sunk in plaster the garden glazed
under full moonlight under skies framed
by the rooms orthogony by disappointment
in the bewildered bubbling in the dozing rostrum
crushed faded curious toothed carved
storeroom of love and loathing of goals and tools
lace of bittersweet memory of rigid dreams
among the remains of oxidized food of a bony nature
the obstacle the rough sketch of the world's outline.

Adriano Spatola
